The Clinics are designed for those who have some experience in tennis and would like to join their games together with other players. There are different programs each weekday to make our clinic fun and mixing the activity up for each session.

Sessions start with 15 minutes warm up, getting into strokes and also for the coaches to observe the level of the player.

All parts of the game will be covered during the week so each player will get the most out of the clinic.

The main focus will be on developing the right technique of each stroke, footwork and the different movements of the game.
